To:
Mr.Eliezar"Lay Z"Gordon

Your Optimistic worldly view was presented to me, and I was very much impressed.

Your contribution in the sports & Music arenas will combine to assist in the process of molding the behavioral thought process of the youth, in order to adapt a way of life which is clean of violence, while evolving in sports and creativity.

In our meeting together, I found a charismatic enraptured personality, with the ability to convince. It all matched your professional accomplishments that are much appreciated and acknowledged by all.

Within our national program to a safer Environment in our schools, I see a need to have meetings, presentations with monumental figures like you, being a personal role model to the Youth.

Ronit Tirosh

Director General
