Mr. Gordon

Appreciation and gratitude

We would like to grant our sincere gratitude and appreciation on a series of seminars that were led by you to the employees of the Electricity Company of Israel in the subject of "The Importance and Necessity of Dreams."

As a company which performs countless seminars we were deeply impressed from the level of moral value that was passed on to the seminar's participants. We believe the participants were exposed to a different perspective of the meaning of dream accomplishments using marvelous examples from the world of music and sport and all in order to reduce the metaphorical distance between us and our long lasting dream.

In hope for future cooperation,

Sincerely

,

Sandy Yariv
Training manager
